He asked the senators to promote this, so that the community can get the money for a project they have planned. They want to put in a fishing pond with the money. They also want to connect all of the greenbelts around Pocatello. This would help the bikers be safer. Idaho Falls has some great events coming up. Idaho Falls Vice President Thompson stated that the Idaho Falls campus will be going smoke-free in January. Senator Bodily shared the story of his engagement. Senator Bodily asked about the power ASISU has over the smoke free campus policy. President Bloxham noted that it is a student issue and senators should promote awareness about this policy. Senator Son wondered if there were any programs on campus to help smokers quit. President Bloxham noted that there are smoking cessation classes at the Student Health Center. ANNOUNCEMENTS AND CORRESPONDENCE
1. Jane Coe Smith, Director of Student Life, and Asa Burlin, Assistant Director of Programming, Janet C. Anderson Gender Resource Center, want to increase campus safety. They want to introduce a bystander intervention program: the Green Dot Program. The program targets bystanders who don’t know what to do in a situation. Violence is a red dot and a green dot is violence prevention. Peer pressure is huge; students don’t want people to judge them. Asa doesn’t want people to accept that there are red dots on campus. She invited the senators to get green dot trained. Tomorrow there will be an overview presentation, and Friday they will have a full day of training. Senator Johnson asked if there is a way to get trained in a smaller amount of time. Asa stated that they will work with anyone’s schedule. Service Committee could work on getting a time set up. Senator Daniels wondered if it was about stopping violence before it happens or while it is happening. Asa noted that it is about both. The program tries to give people the tools to react and stop crimes. Senator Son wondered if the training could happen at club meetings. President Bloxham noted that it would count towards Incentive Points. Asa is going to meet with Val to discuss this. Senator Pitcock recommended that the senators go for any amount of time that they can, even if it is not the full amount. Jane noted that some CPI positions will count this training towards their hours. Smoking violates the Student Conduct Code. After violating the code multiple times, a student will be fined. There is an ordinance being considered to have a city wide smoking ban in all areas. Currently, it is still permissible to smoke on city sidewalks on campus. Senator Harker wondered if a student could be kicked out of school or be denied transcripts. Jane noted that it likely would not result in that. Holds can be put on their account if they are not coming into the office to talk about their violations. She views it as a minor policy violation and would not like to disrupt a student’s education in that case. Multiple violations could lead to other conduct code violations though.
2. John Ney, Assistant Professor, College of Business, wanted to inform the senators of some events going on at the College of Business. The Etiquette Lunch hosted by the First Lady of ISU is next week. A guest speaker is going to talk about landing one’s dream job with the help of social media. Thursday they will have a career fair. Friday is an accounting symposium. Vice President Jensen noted that the dream job workshop is great for students, even if they are not with the college of business. John noted that on September 25 there will be an alumni speaking about his success. All events will have free food. He stressed that it is best to put some effort into one’s appearance at the fair to impress employers. Senator Son thanked John for putting this together. He will let students know about these events. He ended up
getting an internship and job at a similar event that the College of Business put on. John asked the senators to relay this information to their constituents. He noted that many employers think that students need to work on their soft skills such as eye contact. Senator Hudson wondered if there was an electronic copy of the flyer that they could send out.
