Diesel/On-site power generation technicians repair and maintain diesel engines in a variety of farming, construction, transportation, and other trucking needs. On-site power is a specialty skill for building or repairing sophisticated diesel generators.

**DEGREE OPTIONS**
- Diesel Technology Advanced Technical Certificate: 2 years
- On-Site Power Generation Technology Advanced Technical Certificate: 2 years
- Diesel Technology Associate of Applied Science: 2 years
- On-Site Power Generation Technology Associate of Applied Science: 2 years
- Bachelor of Applied Science: 4+ years

**CAREER OPPORTUNITIES**
- Heavy equipment dealers
- Government agencies
- Road/bridge construction companies
- Transportation companies
- Mining and manufacturing operations

**COMPETITIVE ENTRY**
- No

**PROGRAM START**
- August

**TUITION AND FEES**
- Associate Degree
  - $13,928
- Books and Supplies
  - $4,309

**PREREQUISITES**
- None

**LOCATION**
- Diesel Mechanics Building (#73)
- 1257 S. 2nd Avenue

**CLASS SCHEDULE**
- Monday through Friday
- 7:30 a.m. to 2:30 p.m.

**WRITING: 55  PRE-ALGEBRA: 38**
- English: 14  Math: 14
- English: 360  Math: 320

**COMPASS**

Graduates from the Diesel/On-site Power program are routinely employed by some of the largest diesel companies in the country. Graduates have been hired by Caterpillar, John Deere, Kenworth, Case-International, Hitachi, Mitsubishi, Detroit Diesel Engines, Allison Automatic, Peterbuilt, and many more.

**100% GRADUATES EMPLOYED OR CONTINUING EDUCATION LAST YEAR**

**$48,770 NATIONAL MEDIAN INCOME**

**$46,500 IDAHO MEDIAN INCOME**
